MEMBER BIOGRAPHIES

Kim Anh Nguyen
Nha Trang University (Vietnam)

Dr. Nguyen's varied research interests include fisheries and aquaculture economics and management, international trade, poverty alleviation and sustainable livelihoods in the small-scale fisheries and small-scale aquaculture and, most recently, effects of climate change. Since November 2012, she has been conducting research on the effects of climate change on aquaculture production and marketing in Vietnam at Auburn University in the Department of Agricultural Economics and Rural Sociology under the Fulbright Scholar Program.

In addition to her position at Nha Trang University, Dr. Nguyen concurrently serves as director of the NOMA-FAME international master's program funded by SIU, the Norwegian Government. In 2010, she was a university fellow at the University of Tromso in Tromso, Norway. She is a Ph.D. graduate of the National Economics University, Ha Noi, Vietnam, and has received a first class bachelor's degree not only in fisheries economics but also in English.

Upon request Dr. Nguyen gives policy advice on fisheries and aquaculture management and development to the Vietnamese Ministry of Agriculture and Rural Development. She also serves on the review committees of the Fisheries and Aquaculture Development Strategies of coastal provinces in Southern and Central Vietnam as well as on the graduate committees of over 50 students at Nha Trang and other Vietnamese Universities.

Dr. Nguyen has an extensive listing of honors and awards. She is the author/co-author of numerous books as well as many scholarly papers and conference presentations and participates in international cooperative activities. She is also a member of the IIFET Executive Committee 2012–2016.
